

## RELEASE OF PATIENT RECORDS ON DEMAND

Chart2PDF is a powerful add-on tool designed to make the release of patient records efficient, fast and easy. Whether you need a single patient chart or a batch chart of 10,000 for an audit, this solution includes the ability to filter, personalize, scan and export charts - saving time and improving your workflow.

With Chart2PDF, you can instantly filter, export, print, and save every document, note, scan, and clinical summary in a patient's history. And of course, quickly generate a PDF version of your patient's chart. As one of our interoperability applications, Chart2PDF strengthens your clinical and financial performance, while taking meaningful steps to unify and connect your practice information systems.

## FEATURES

### Advanced Patient Searching

Find patients with more search options, including: MRN, Full or Partial Last Name, First Name, and Birthday.

### Extraction Status

Enable users to see when an extract has been completed.

### Global Document Options

Check and uncheck document filter options to change what appears in the extracted chart.

### Long Results Support

Format long results into their own document.

### Pay-By-Chart Pricing

Only pay for what you use with our new pricing model.

### Stand Alone Mode

Select EHR platforms have a database architecture that enables a stand alone mode that allows Chart2PDF to function even if logged out of your EHR.

## Chart2PDF Offers...

**10,000**

Charts or More Output  
Per Batch

**1,000**

Page Output Per Minute  
*The Highest in the Industry*

**2**

Flexible Workflow Options  
*On-Demand & Batch Automation*

### Efficiency

Chart2PDF has two useful workflow options available: On-Demand and Batch Automation. The first allows you to create, personalize, and export a single patient chart instantly. The second allows you to select, personalize, and export multiple patient records immediately or at a later scheduled time.

### Productivity

Free up your staff with Chart2PDF. End preoccupation with time consuming tasks such as printing, scanning, and creating one patient chart at a time. This application allows you to end the inefficient use of staff resources on tedious administrative tasks.

### Cost-Effectiveness

Reduce your material and labor costs associated with creating, storing, and exporting patient records. Chart2PDF is all digital and does not require significant physical resources in order to function effectively.

### Security and Risk Mitigation

Chart2PDF protects sensitive patient information. All exported charts are password protected for security. Additionally, there are several reporting features available including data on application use and an audit of all extracted charts categorized by disclosure reason. **You can also quickly respond to legal and insurance audits with Chart2PDF.**

## CHART2PDF EHR Integration

Chart2PDF was designed to integrate into your EHR platform. Keena's integration team has a great deal of experience working with market leading EHR companies to seamlessly integrate our application with your EHR platform of choice.
